KCSO Dispatched Calls for Service Response Times

Parameters:

Date 3/1/2018 to 3/31/2018
Range:
Zones: COOPER TWP

Description:

This report provides Call For Service (CFS) response times for a Township, Village, or City within the provided date range.

Note - response times are especially subject to data distortion. For example, a responder that is not marked Arrived when they are on scene can result in an especially long "response" time. Likewise, a call may be held while another rare but high priority call is prioritized, resulting in a longer hold time that might not be reproduced in normal circumstances. In short, the longer the time frame (preferably at least a year) and the more common the Nature, the more the data can be relied on.

A Call for Service is defined as a single event for a single department. For instance, multiple deputies may respond, but one Call for Service is generated. A cross-agency event will generate one CFS per agency. CFS may be generated by citizen requests or self-initiated by a first responder. The nature of the CFS may evolve over the life of the event and the most recently updated nature is provided.

This report includes CFS for all agencies, including police, fire, and EMS, that are dispatched through the Integrated Dispatch center. Responses from Portage DPS, WMU DPS, or fire agencies outside the county are not included.
