--	----------

Richards Septic Tank Service Dale Richards 5556 East V Avenue Vicksburg, MI 49097	349-8066 649-2479
--	----------------------

The above contractors are expected to perform the connection in a professional workman like manner. The following items should be fully discussed between you and your contractor.

(Over)

1. Service Elevation – how deep will sewer be, is the lowest level of home being service
2. All Drain Pipes – must be fully connected, preferably on the inside of the house
3. Type of Restoration – topsoil, grass seed, how much to be done by owner
4. Septic tank & Drywells Abandoned –septic tank pumped and filled with sand or others suitable material
5. Asphalt Repair – if applicable
6. Access to Property – is your property fully accessible without trespassing on neighboring property?
7. Down spouts (storm water) -- not permitted to be tied into sanitary sewer
8. Groundwater/Storm water/Basement foundation drains -- are not permitted to be connected to the public sewer

Should there be a problem with your contractor and his performance please inform us so we may keep the files up to date.

The attached specifications apply to the connection. The construction from the house to the sewer will be inspected by our personnel.
